

Simplify The Complexity Behind Every Closing

One connected, AI-powered platform for title production, closing, workflow management, automation, and integrations.

AtClose is a modern, cloud-native, AI-powered platform that brings the workflows, people, vendors, documents, and systems behind every transaction together in one connected environment. By combining workflow intelligence, automation, vendor coordination, and AI-driven insights, AtClose helps organizations simplify complex operations, strengthen visibility and control, and drive more efficient, consistent closing outcomes.

Powering Smarter Closing Operations

Title Production	Closing & Settlement	Flexible Workflows
AI-enabled title search, examination, curative tracking, and issue resolution	Coordinate closing activities, documents, stakeholders, disbursement, and funding.	Automate routine steps, manage work across teams, and adapt workflows to business processes.
01	02	03
04	05	06
Manage vendors, assignments, approvals, performance, and communication with greater visibility.	Embed intelligence into workflows, document processing, auditing, compliance monitoring, and exception management.	Connect with the systems, services, and partners your operation relies on.
Vendor & Partner Management	AI-Powered Automation	Integrations & Connectivity

AI Intelligence In Action

Work Smarter

Automate document handling, categorization, indexing, and workflow routing to reduce manual effort.

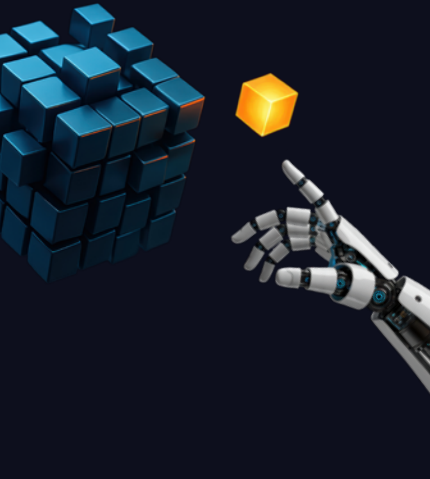

Close With Confidence

Use AI-powered auditing, compliance monitoring, and business rules to identify risks and support consistent processes.

Empower Your Teams

Get AI-powered guidance, intelligent workload assignment, and greater visibility into orders and workflows.

Why Teams Choose AtClose

✓ Unified Workflow Control

Manage multiple companies, branches, and states through configurable workflows and one unified database.

✓ Cloud-First Security

Access AtClose securely through a browser, with a cloud-first approach built for modern operations.

✓ Configurable Closings

Adapt workflows to different transaction types and business processes.

✓ Real-Time Visibility

Gain greater visibility into orders, workflows, activity, and transaction status.

✓ Compliance & Control

Strengthen operational consistency with business rules, structured processes, monitoring, and audit trails.

✓ Reliable Pricing

Transparent and predictable pricing designed to provide greater cost certainty.
