

From pilot to profit: Visionet GenAI workshop for enterprises on Microsoft Stack

GenAI is everywhere but impact isn't.

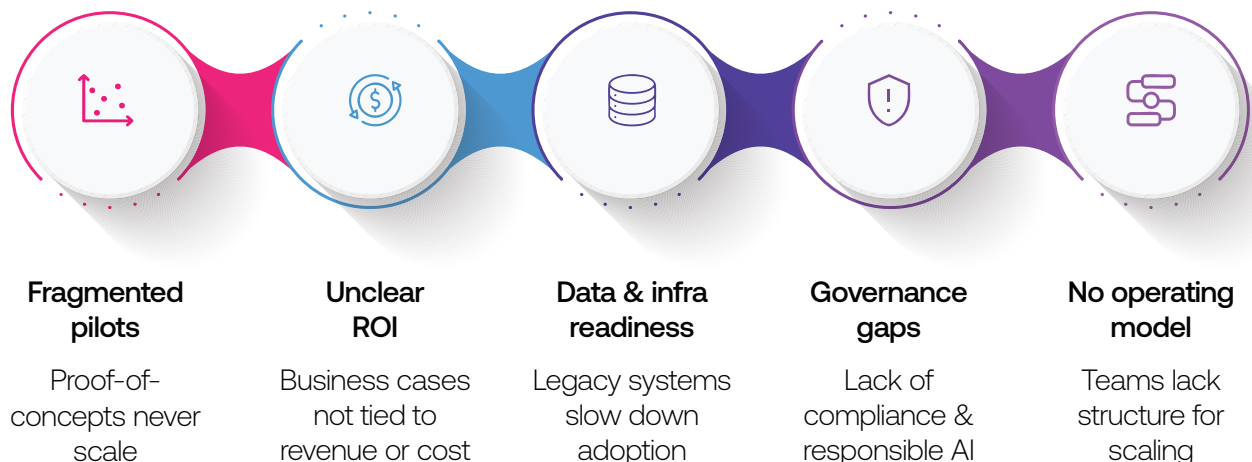

Most enterprises are still experimenting, stuck in pilot mode and struggling to move from GenAI experiments to business-wide adoption. Visionet's From pilot to profit: GenAI workshop, powered by the Microsoft ecosystem (Copilot, Fabric, Azure AI Foundry, and Azure Cloud) & Visionet accelerators helps organizations transition with speed and confidence.

Adoption snapshot

We'll help you crack the code to scale GenAI responsibly, tie it to enterprise goals, and set the foundation to evolve into Agentic AI, where autonomous agents drive true enterprise transformation.

Challenges enterprises face

Why this workshop matters

This workshop helps you align leaders, unlock a clear roadmap, and move from hype to impact.

At the end of the workshop, you'll gain:

Visionet proven 4-step playbook	Operating model → impact → platform → scale
Custom Microsoft GenAI blueprint	Walk away with a tailored Microsoft GenAI blueprint designed around data, infrastructure, and business priorities
Launch your first agent in 4–6 weeks	Jumpstart your MVP with Microsoft credits and Visionet investment, delivering impact in weeks
Faster time-to-value	Accelerate GenAI adoption with Visionet's GenAI Studio and AgentVerse accelerators built on Microsoft services

Workshop structure

Pre-workshop discovery (1–2 weeks before)	Facilitated workshop (4 hours virtual/ onsite)	
A short Q&A to align on interests, intent, pain points, and desired business impact	Ignite + blueprint (2 hours) <ul style="list-style-type: none">• Vision & business goals• Discuss trends and pitfalls in GenAI adoption• Hands on demo - Visionet Accelerators built on Microsoft services• Industry-relevant use case discussion	Ascend (2 hours) <ul style="list-style-type: none">• Visionet and Microsoft GenAI success stories• Implementation roadmap• Microsoft GenAI blueprint (delivered in 2 weeks)• Co-funded MVP (delivered in 4- 6 weeks)• 3-month adoption plan (1 prod + 2 MVPs)• 6–12 month scaling strategy

Who should attend

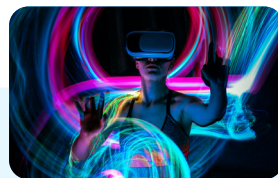

Business leaders & CXOs

to scale GenAI responsibly and tie to P&L

IT & data leaders

seeking a clear AI operating model

Innovation & transformation teams

to fast-track high-value use cases

Risk, legal & compliance leaders

to ensure secure, compliant adoption

Microsoft & Visionet advantage

Why Azure AI

Agnostic model availability

Wide choice of OpenAI, open-source, and custom models available through Azure AI Foundry — enabling flexible deployment of Copilots and Agents across the Microsoft ecosystem

Comprehensive AI services

End-to-end GenAI capabilities powered by Copilot extensibility, Fabric data intelligence, Azure OpenAI, AI Search, Cognitive Services, and Azure ML — for seamless development to deployment

Data readiness

Enterprise-grade foundation with Synapse, Fabric, Data Lake, and Purview for governance and scale

Why Visionet

Strategy & governance

Proven consulting playbooks to align business priorities, operating models, and governance frameworks

Adoption & scaling

Accelerators like Visionet GenAI Studio and AgentVerse, built on the Microsoft stack, to fast-track Copilot, Agents, and Fabric roll-out across enterprise functions

Jumpstart

50+ pre-built GenAI accelerators and Copilot extensions to shorten time-to-value and deliver measurable ROI — backed by Visionet IP and Microsoft funding programs

Proven outcomes

Life Insurance firm

Azure GenAI foundation with LLMOps; developed AI agent automating software requisition process

Professional services firm

Enterprise GenAI foundation on Azure AI Foundry with RFP automation, Q&A, and summarization; 50–60% effort cut, 2x throughput
