From pilot to profit: Azure GenAI workshop for enterprises

GenAI is everywhere but impact isn't.

Most enterprises are still experimenting, stuck in pilot mode and struggling to move from GenAI experiments to business-wide adoption. This workshop is your entry point to change that with Microsoft Azure AI Foundry, Copilot and Visionet Accelerators. We'll help you crack the code to scale GenAI responsibly, tie it to enterprise goals, and set the foundation to evolve into Agentic AI, where autonomous agents drive true enterprise transformation.

Adoption snapshot

Only **9%** of CIOs have a clear AI vision	Only **4%** of IT leaders say their data is AI-ready	**50%** of consumers don't trust humans to use AI responsibly	By 2028, **15%** of daily decisions will be made by Agentic AI

This workshop gives you the clarity, governance, and roadmap to get ahead responsibly with **Azure AI Foundry, Copilot and Visionet Accelerators.**

Challenges enterprises face

Fragmented pilots	**Unclear ROI**	**Data & infra readiness**	**Governance gaps**	**No operating model**
Proof-of-concepts never scale	Business cases not tied to revenue or cost	Legacy systems slow down adoption	Lack of compliance & responsible AI	Teams lack structure for scaling

Why this workshop matters

This workshop helps you align leaders, unlock a clear roadmap, and move from hype to impact.

At the end of the workshop, you'll gain:

Visionet proven 4-step playbook	Operating model → impact → platform → scale
Custom Azure GenAI blueprint	Walk away with a tailored Azure GenAI blueprint built around your data, infra, and business goals
Launch your first agent in 4–6 weeks	Jumpstart your MVP with Azure credits and Visionet investment, delivering impact in weeks
Faster time-to-value	Accelerate GenAI adoption with **Visionet's GenAI Studio and AgentVerse** accelerators built on Azure AI

Workshop structure

| Pre-workshop discovery (1–2 weeks before)	Facilitated workshop (4 hours | virtual/ onsite)	
A short Q&A to align on interests, intent, pain points, and desired business impact	**Ignite + blueprint (2 hours)** • Vision & business goals • Discuss trends & pitfalls in Azure GenAI adoption • Hands on demo - Visionet Accelerators built on Microsoft services • Industry-relevant use case discussion	**Ascend (2 hours)** • Visionet Azure AI success stories • Implementation roadmap • Azure GenAI blueprint (delivered in 2 weeks) • Co-funded MVP (delivered in 4- 6 weeks) • 3-month adoption plan (1 prod + 2 MVPs) • 6–12 month scaling strategy

Who should attend

Business leaders & CXOs

to scale GenAI responsibly and tie to P&L

IT & data leaders

seeking a clear AI operating model

Innovation & transformation teams

to fast-track high-value use cases

Risk, legal & compliance leaders

to ensure secure, compliant adoption

Microsoft & Visionet advantage

Why Azure AI

Agnostic model availability
Wide choice of OpenAI, open-source, and custom models through Azure AI Foundry

comprehensive AI services
Azure OpenAI, AI search, cognitive services, and Azure machine learning for end-to-end AI development

Data readiness
Enterprise-grade foundation with Synapse, Fabric, Data Lake, and Purview for governance and scale

Why Visionet

Strategy & governance
Proven consulting playbooks to align business priorities, operating models, and governance frameworks

Adoption & scaling
Accelerators like GenAI Studio & AgentVerse built on Azure to fast-track rollout and scale across functions

Jumpstart
50+ pre-built GenAI accelerators to shorten time-to-value and drive measurable ROI

Proven outcomes

Life Insurance firm
Azure GenAI foundation with LLMOps; developed AI agent automating software requisition process

Professional services firm
Enterprise GenAI foundation on Azure AI Foundry with RFP automation, Q&A, and summarization; 50–60% effort cut, 2× throughput
