# From pilot to profit: Visionet GenAI workshop for enterprises

GenAI is everywhere but impact isn't.

Most enterprises are still experimenting, stuck in pilot mode and struggling to move from GenAI experiments to business-wide adoption. This workshop is your entry point to change that. We'll help you crack the code to scale GenAI responsibly, tie it to enterprise goals, and set the foundation to evolve into Agentic AI, where autonomous agents drive true enterprise transformation.

Adoption snapshot

Only **9%** of CIOs say their organization has an AI vision statement in place	Only **4%** of IT leaders say their data is AI-ready	**50%** of consumers say they don't trust humans to use AI responsibly	By 2028, **15%** of day-to-day work decisions will be made autonomously by Agentic AI

This workshop gives you the clarity, governance, and roadmap to get ahead responsibly.

Challenges enterprises face

Fragmented pilots	**Unclear ROI**	**Data & infra readiness**	**Governance gaps**	**No operating model**
Proof-of-concepts never scale	Business cases not tied to revenue or cost	Legacy systems slow down adoption	Lack of compliance & responsible AI	Teams lack structure for scaling

Why this workshop matters

This workshop helps you align leaders, unlock a clear roadmap, and move from hype to impact.

At the end of the workshop, you'll gain:

Visionet proven 4-step playbook	Operating model → impact → platform → scale
Custom GenAI blueprint	Walk away with a tailored blueprint built around your data, infra, and business goals
Launch your first agent in 4–6 weeks	Jumpstart your MVP with hyperscaler credits + Visionet investment, delivering impact in weeks.
Faster time-to-value	Accelerate GenAI adoption with **Visionet's GenAI Studio and AgentVerse** accelerators

Workshop structure

| Pre-Workshop Discovery (1–2 weeks before)	Facilitated workshop (4 hours | virtual/ onsite)	
A short Q&A to align on interests, intent, pain points, and desired business impact	**Ignite + blueprint (2 hours)** • Vision & business goals • Discuss trends & pitfalls in GenAI adoption • Visionet accelerators demos • Industry-relevant use case discussion	**Ascend (2 hours):** • Visionet success stories • Implementation roadmap • GenAI blueprint (delivered in 2 weeks) • Co-funded MVP (delivered in 4 - 6 weeks) • 3-month adoption plan (1 prod + 2 MVPs) • 6–12 month scaling strategy

Who should attend

Business leaders & CXOs

to scale GenAI responsibly and tie to P&L

IT & data leaders

seeking a clear AI operating model

Innovation & transformation teams

to fast-track high-value use cases

Risk, legal & compliance leaders

to ensure secure, compliant adoption

Why Visionet

Trusted by global enterprises
across retail, professional services, healthcare, financial services

Adoption & scaling
Accelerators like GenAI Studio & AgentVerse to fast-track rollout and scale across functions

Jumpstart
50+ pre-built GenAI accelerators to shorten time-to-value and drive measurable ROI

Responsible by design
Governance-first approach, built on global compliance standards

Co-funded acceleration
MVPs delivered faster with Azure, AWS, GCP credits + Visionet investment

Proven outcomes

Global retailer
Scaled from workshop to enterprise GenAI adoption across functions

Professional services firm
4-week MVP to enterprise RFP AI, 60% effort cut, 2× throughput

---

From 4 hours to enterprise scale?
Book your Visionet GenAI workshop today.

In 4 hours	In 2 weeks	In 4-6 weeks	In 3 months	In 6–12 months
Align on priorities & vision	Get your custom Azure GenAI blueprint	Launch your first enterprise-ready agent	Drive adoption with 1 production use case and 2 MVPs	Scale GenAI across the enterprise

Turn pilots into profits. Scale GenAI responsibly with Visionet.
